

Rare Disease Disability Toolkit

The Toolkit:

- Includes new **peer-to-peer** supports.
- Builds **capacity** in disability rights and **self-advocacy**.
- Supports people to better **access and navigate** disability and other systems (such as health, education and employment).

Scan the QR code to visit the Toolkit webpage:

Includes:

- 1 Rare Disease Disability Management Plan
- 2 Reasonable Adjustments in Healthcare
- 3 Navigating Air Travel with Rare Disease Disability
- 4 NDIS and Rare Disease Disability

Each resource includes a main guide and extra tools **to help you speak up for yourself and use together with your support team.**

Toolkit Development:

Toolkit development was codesigned with people living with rare disease disability and facilitated by **Rare Voices Australia**, the national peak body for Australians living with a rare disease.

The Toolkit was funded by the Australian Government through the Peer Support and Capacity Building grant for the National Disability Insurance Scheme (NDIS) as part of the Rare Disease Disability Project.
